

## Coronavirus Update

Due to the Coronavirus pandemic our nation is facing, we at Fischer Health & Rehab Center are taking extraordinary measures to ensure your safety at our office so that your care may continue. The health and well-being of our patients and staff has always been of utmost importance.

We have always been committed to keeping our facility clean and sanitary. We have always used, and continue to use, hospital-grade germicide/disinfectant to clean all our tables/equipment. Some of our enhanced measures that will be taken include disinfecting the entrance doors, reception area, treatment rooms, and bathroom surfaces every hour. All our tables and equipment will be disinfected after each patient. All patients will be asked to wash their hands with soap and hot water for 20 seconds before being treated.

We will be screening all our patients to determine if they have any symptoms such as a cough, sore-throat, runny nose or fever. We will be checking to make sure no one has recently traveled to any high-risk areas as determined by the government. We will be making sure no one has been exposed to someone who has been exposed to the coronavirus. Anyone who falls into any of these categories, is asked to call the office to cancel your appointments.

These are extraordinary times that require vigilance and extraordinary measures. We urge you to continue your ordered treatment plan; however, if it is challenging to keep your appointed number of visits, do the best you can, and we will accommodate you in every way possible. We look forward to life normalizing and we will do everything within our power to ensure your health, happiness and safety.

We will continue to monitor this developing situation closely and comply with recommendations and instructions from our local and state health departments. Please feel free to call us at (201) 244-8908 with any further questions or concerns.

Sincerely,

Christopher Fischer, D.C.
